Yard Debris Collection

All weekly and monthly customers whose residence is within the City Limits automatically have yard debris. Will Call Customers can sign up for the service, for an annual fee.

Please use your brown yard debris cart for all your yard debris. Occasionally, if you have more debris than will fit, and you don't want to wait 'til next week, you can set out yard debris in a heavy-duty, Kraft paper bag. **Never use plastic bags.** There will be an additional charge for each extra bag.

You can put up to 60 pounds of yard debris in the cart - but never more than that! (Overweight carts will not be emptied.) If you have more than 60 pounds, either save the excess 'til next week, or set it out in a Kraft paper bag.

Yard debris includes: **LEAVES, GRASS CLIPPINGS, OTHER YARD VEGETATION, FRUIT & VEGETABLES, AND SMALL TREE/SHRUB PRUNINGS**, (prunings must be cut up so they are small enough to fit in the cart - and must be under 4" in diameter).

Do NOT include dirt, rocks, sod, stumps, logs, garbage, ashes, animal waste, cat litter, metal, concrete, or food waste (other than fruit & vegetables). If any of these contaminants are in the cart, it has to be treated as garbage and charged as an extra garbage set out.

Normally, yard debris is picked up on the same day as your regular garbage, although there may be some exceptions. And it's picked up each week, year round.

Please have your cart curbside by 5:00 am. And PLEASE! Make sure our truck can get to your cart. The wheels should face the curb, away from the street. And it can't be blocked by cars, trees, etc. There has to be at least 2 feet between the yard debris and trash carts. And DON'T tie the lid down!

Thank You!
