

Construction and demolition waste acceptance form

To protect the health and safety of our employees and customers, all loads of construction, remodeling and demolition waste brought to Metro Central or Metro South transfer stations are screened before, during and after unloading for materials that may contain asbestos. This form is required for all such loads of waste that contain construction and demolition waste.

Analytical test results are required for the following products commonly known to contain asbestos:

- **Interior walls and ceilings:** acoustical tiles, glue dots, plaster, and textured surfaces
- **Exterior walls:** cement siding, stucco
- **Flooring:** vinyl tiles, sheet vinyl, some mastic adhesives
- **Insulation/fireproofing:** block, boiler, spray-applied, vermiculite, monokote, sink undercoating, thermal system insulation (fiberglass, cellulose, and mineral wool are exempt)
- **Gaskets:** furnace, mechanical, boiler, wood stove (automotive gaskets are exempt)
- **Heating:** white paper or seam tape on ducts, air-duct cement and insulation
- **Roofing materials:** tar paper, felt, silver/white roofing paint, Nicolite paper
- **Fire doors, fire/kiln brick and fireproofing**
- **Various compounds:** window glazing, adhesives, caulks, patching, mastics, vapor barrier products (plastic or synthetic materials such as Tyvek are exempt)
- **Electrical:** switch gear, circuit boxes and fuse panels; wiring with cloth insulation (Romex wiring is exempt)

PLEASE NOTE: Flat/built-up roofing is not accepted, even if customers present negative analytical test results.

INSTRUCTIONS

- This form is required for all loads containing construction, remodeling or demolition debris.
- This form should be completed by the person responsible for and knowledgeable about the contents of the load.
- For multiple-load projects, copies of this form will be accepted, but the contents of the load must match the description of the waste materials on the form.

All parties involved (generator, contractor and hauler) may be held responsible for the abatement of positive (greater than one percent asbestos by weight) asbestos-containing materials unloaded at Metro's transfer stations, including but not limited to the costs for testing, a licensed abatement contractor, fines and administration.

- 1. Did waste materials originate from a structure or RV constructed after January 1, 2004, or were the materials manufactured after January 1, 2004?
 Yes (if yes, skip to #4) No
- 2. Was an asbestos survey conducted?
 Yes (if yes, attach survey) No (if no, skip to #4)
- 3. If any asbestos-containing materials were identified in the survey, submittal of this form is my statement that those materials were handled properly and are not present in this load.
Signature: _____

4. Address of work site: _____
Property owner: _____
Phone: _____
Mailing address (if different): _____

- 5. Hauled by:
 Building Contractor (if self, skip to #6)
 Waste Hauler (if waste hauler, complete the following):

Name of hauling company or contractor: _____
Company contact: _____
Phone number: _____

6. Description of waste

- 7. Certification: I certify that the above information is true and correct to the best of my knowledge, and that the documentation presented represents the materials delivered to the transfer station. I also attest that the waste materials in this load do not contain asbestos.
