Company, Inc.

Dear Drop Box Customer,

**Please review and confirm by your signature below that you have read and understand the requirements and restrictions for drop box use.**

Drop boxes are great for disposal of bulky materials from home or office, light demolition, tree trimming or other general cleanup projects. However, not all items are acceptable for disposal and not all box sizes are appropriate for each job.

- *If you are disposing of dirt, rock, sod, concrete or any other heavy dense material, then a 10 cubic yard drop box is the only size allowed.*
- *If you are disposing of composite roofing material, a 20 cubic yard or 30 cubic yard drop box are the only sizes allowed.*

Unacceptable items in any drop box include but may not be limited to the following:

- E-waste (TVs, computers and computer monitors)
- Liquids
- Hazardous materials (i.e. paint, pesticides, chemicals, asbestos...)
- Toxic substances (fertilizers, creosote, pool supplies...)
- Pollutants and contaminants
- Infectious waste, medical waste, or radioactive waste as defined by applicable federal, state, or local laws or regulations.
- **All demolition and remodel debris must be accompanied with documentation proving the load does not contain asbestos containing material.**
  - **If any material in the box could be considered suspect Asbestos-Containing Material (ACM), including but not limited to flooring, sheetrock, duct work, roofing material, plaster, popcorn ceiling, or anything else that looks like it came from a remodel or demolition, the hauler and/or disposal site may refuse the box until the customer can provide documentation proving the load does not contain ACM. If a box is picked up and undeclared suspect ACM is discovered at the transfer station, the customer will be charged for all cleanup costs, either by Metro, or by the hauler. Cleanups are in the thousands of dollars. \_\_\_\_\_ (Initial Here)**

**If a box is rejected at the METRO Transfer Station, the customer will be charged a \$150.00 Rejection Fee. \_\_\_\_\_ (Initial Here)**

Overweight or overfilled boxes will be subject to additional fees and may require removal of material by the customer before the box can be hauled.

As a drop box customer you will be responsible for all fees incurred including delivery, haul, disposal and may include additional fees such as: rent, dry run, damage to box, testing, clean up, abatement of unacceptable items, etc...
